Honda Engines

GXV50. Vertical Crankshaft ... All engines. Honda's automatic mechanical decompression system is designed to give you quicker, easier starts. This system, which is connected to the camshaft, reduces compression by opening the exhaust valve slightly when the engine is being started. This reduces the amount of force needed to start the engine and improves starting performance. The system ...

Honda Engines

The GXV50 engine is suitable for a wide range of applications such as construction equipment, tillers, pumps and other industrial applications. This engine is a perfect replacement for 2-stroke engines in various applications.

Engine model details - Honda Engines
