Ancient Sumerian Tablets | Documentary Boxset | The 'watchers' world's biggest secret decoded The Flooded Earth Our Future

In The Flooded Earth, species extinction expert Peter Ward describes in intricate detail what our world will look like in 2050, 2100, 2300, and beyond a blueprint for a foreseeable future. Ward also explains what politicians and policymakers around the world should be doing now to head off the worst consequences of an inevitable transformation.

A professor of biology and Earth and space science, Peter D. Ward has not only a firm grasp on the reality of climate change but also the rare ability to explain its details in language even I can understand. The Flooded Earth did not leave me feeling particularly hopeful; this threat is real and imminent, with no easy solution. On the other hand, this is a book that puts into perspective our role in the problems and shows us with terrifying clarity where we stand and how we can best prepare ...
